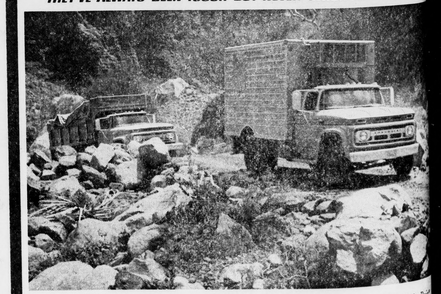
'63 Chevrolet Trucks

THEY'VE ALWAYS BEEN TOUGH BUT NEVER STRONGER THAN NOW!



You can be sure that new engines, frames, suspensions that licked Mexico's Baja Run will work for you long, faithfully and at traditionally low Chevrolet cost.

A Chevrolet truck has always been a sound investment because of its quality construction. This is what makes it give you an honest day's work every day at very low cost and—when you are finished with it—return more resale money to your happy pocket.

This year stronger frames, engines that can pull more, and practically tailor-made suspension systems make Chevrolet trucks a better buy than ever. If you're in the market now, we'd welcome the chance to tell you about, and let you drive, the new trucks. Just give us a call.

Hunt For Gold

When two lieutenants under the command of Mumford and Rosser were killed or dis-appeared during the last days of the War Between the States, they reportedly buried a shipment of gold, dispatched originally to pay Confederate soldiers.

Working on obscure reports, plus maps issued by the National Park Service, a visitor to the Appomattox area has caused a story of "lost gold" again to come to light.

Superintendent Tom Norris of the Nat'l Park Service stated to the TIMES that he has heard reports of lost gold from time to time, but has never seen any evidence or historical documents to support such a report.

The maps being used by one historian (who prefers to remain anonymous) are copies of those drawn up by Brig. Gen'l Mitchler in 1867, based upon his service and experiences around Appomattox.

The gold is buried, supposedly, in the Concord area, but this is only hearsay, according to one report to the TIMES.
